

J & J Snack Foods Corp. Cage-Free Egg Statement

As a leader in the food and beverage space, we believe in a thoughtful approach to how we operate that takes into consideration our various key stakeholders. One issue J & J Snack Foods is committed to addressing is the treatment of animals. In fact, the company has long supported both the American Society for the Prevention of Cruelty to Animals (ASPCA) and other similar causes. Our Founder, Gerry Shreiber, formed and funded a foundation – The Gerald B. Shreiber Foundation - the mission of which is to support animal welfare organizations.

J&J utilizes a substantial amount of eggs in its operations. Currently, about 30% of the eggs purchased for use in our products come from cage-free hens. Looking forward, our plan is to increase that percentage to 70% by the end of 2025, 85% by the end of 2027, and 100% by the end of 2028. We also will continue exploring opportunities to accelerate our progress and will report actual progress annually.
